Who is Passport Health?

Passport Health is the largest and leading provider of travel medicine and immunization services. With nearly two decades as the travel health industry leader, we are the largest private buyer of vaccines in the US and administer services at over 220 clinics nationwide. Our Travel Medicine Specialists receive rigorous, ongoing training in the fields of travel medicine and immunology. We specialize in hard to find vaccines such as Anthrax, Japanese Encephalitis and Yellow Fever.

Why use a Travel Medicine Specialist?

Travel Health is Complicated!

With hundreds of destinations, dozens of vaccines and medications, and countless travel supplies, travel health planning involves infinite considerations.

Passport Health Travel Medicine Specialists simplify the pre-travel process to an appointment lasting one hour or less by asking all the right questions:

- What is your destination?
- Are there health advisories currently in effect for any countries on your route?
- Are you aware of travel personal safety issues?
- What is the purpose of your trip?
- Where are you staying?
- What activities do you have planned?
- What are your eating and drinking plans?
- Are you staying in the country for more than 30 days?
- How old are you?
- Are you pregnant?
- Are you traveling with children?
- Are you being treated for any medical conditions?
- What is your vaccination record?
- Have you received your Yellow Fever vaccine previously?
- When are you departing?
- Did you buy travel health insurance?

With a Passport Health appointment, you won't leave your health to chance!
